

Bona Pet System™

Premium Pet Microfibre Mop

Bona®

Phone 1300 882 806

The **Bona Premium Pet Microfibre Mop** system is the ultimate floor cleaning tool for homes with pets. Ergonomic and simple to use, the Pet Microfibre Mop is quick to assemble with an extra-large head with soft rubberized corners and telescopic handle making cleaning easy and quick.

The lightweight and durable mop comes with two microfibre pads each designed to target messes from your pets. Forget filling up a bucket and adding concentrate, just spray and clean!

- Specially developed for sealed hard surface floors
- Ergonomic design
- Durable telescopic mop handle
- Extra large rotating mop head to clean faster
- Soft rubberized corners to prevent damage to skirtings and furniture
- Easy, streak free cleaning
- Contains Microfibre Pet System™ Sweeping Pad and Deep Clean Pad

Contents

Each Premium Pet Microfibre Mop kit contains: -

- Premium Mop
- Pet System™ Microfiber Sweeping Pad
- Pet System™ Microfiber Deep Clean Pad

Additional pads are available separately.

The Premium Pet Microfibre Mop is designed to be used with Bona Pet System Wood Floor Deep Cleaner and Hard-Surface Floor Deep Cleaner. These are supplied in a 1 Lt spray bottle and a 2.5 Lt refill container.

Australian datasheet only – January 2024. This datasheet replaces all previous versions.

Dry Cleaning

Remove pet hair, fur, dander and other loose dust / grit / surface materials etc. using the Bona Pet System™ Microfiber Sweeping Pad. The pad should be shaken / cleaned periodically.

Note: To maintain the electro-static charge the sweeping pad must remain dry. Wipe liquid, spills, etc from the floor before cleaning.

Deep Cleaning

Spray a few square metres of the floor at a time with the appropriate Bona Pet System™ Deep Cleaner for the floor type. Let the cleaner rest for a minute or so on the surface.

Wipe / rub the surface using the blue/green Bona Microfiber Deep Clean Pad. Continue to clean the floor methodically, section by section.

It is important to rinse the Deep Clean pad well or replace it when it becomes dirty; it is usual to consider this step after 10 – 15 m².

To remove stubborn deposits, marks, sticky spills, etc. spray the Deep Cleaner directly onto the affected area. Allow it to work for a few minutes and then scrub the spot clean with a Bona Deep Clean pad. With larger dried deposits this process may need to be repeated.

Bona Pet System Cleaners contains Odour Guard Technology™ which instantly neutralizes and removes odours. Independent testing has shown that this continues to work for up to 5 days.

Bona Pet System™ Cleaners are suitable for daily use. The frequency of cleaning is dependent upon the level and type of use of the flooring.

Care

Soiled cleaning pads can be washed by hand or machine washed at 60° without fabric conditioner / softener. All Bona microfiber pads can be machine washed at least 500 times.

Tip: To ensure the best electro-static charge possible tumble dry the purple Bona Pet System Sweeping Pad.

Never leave your mop standing with a wet pad face down on the floor surface when done cleaning – this may cause permanent damage to the floor surface.

Important notes
