

The Non-toxic, Sustainable Choice

All Bona floor finishes are non-toxic water-based coatings. The main difference between toxic solvent based coatings and non-toxic water-based coatings is the amount of Volatile Organic Compounds (VOC's) that evaporate as the finish dries.

Bona's low VOC's means there is no need to vacate premises during application due to solvent fumes and no concern about the health effects of toxic chemicals.

Who is Bona?

- The market leader in non-toxic timber floor finishes globally
- Bona products are available in over 90 countries
- The No.1 choice for professional contractors
- Experts in floor coatings & cleaning products since 1919

- ✓ Dispersion mainly consisting of plant-based oil

Bona Mega

Designed for Normal & Heavy Residential Use

Bona Mega sets the standard for residential finishes. Mega is the world's biggest selling non-toxic one component polyurethane timber floor finish. More than 175 million square metres of flooring in over 90 countries have been finished with Bona Mega. In contrast to other single pack finishes that simply dry, Mega crosslinks with oxygen from the air, giving improved scratch and scuff resistance.

With excellent overall performance, Bona Mega is a great choice for timber floors in busy homes. Available in four different sheen levels: gloss, satin, matt and extra matt.

- 1 component water-based top coat
- 100% polyurethane with oxygen crosslinking system
- Excellent wear resistance
- Non-yellowing
- For use with Bona primers
- TVOC 65 g/Lt (av all sheens)
- Only 6.3% total solvent content
- 8-10 m²/Lt coverage
- Drying time 2-3 hours between coats
- 5 mg/100 revs wear resistance (SIS 923509)
- 4 sheen levels: Gloss, Satin, Matt and Extra Matt
- Gloss Level (60°):

Gloss	90
Satin	45
Matt	25
Extra Matt	10

Bona's floor care products are GREENGUARD indoor air quality certified, which means they are safe for use around your home, your family and your pets.
