Raw experience, true protection

Bona Traffic HD Raw

Bona Traffic HD Raw brings a uniquely true wood experience into the world of finished floors.

Offering an ultra matt floor surface with a high level of protection, Bona Traffic HD Raw creates a soft haptic feeling of untreated wood, delivering an astonishing tactile sensation.

Haptics is the science of touch. Bona has incorporated haptic technology to achieve a finish that looks and *feels* like raw, natural timber - but with the protection of a finish. Bona Traffic Raw HD is also special because regardless of which angle you view the floor, the sheen remains ultra matt even in reflective light.

A pleasure to walk on with excellent slip safety, Bona Traffic HD Raw is great for homes with children and pets as well as commercial floor surfaces. Bona Traffic HD Raw creates ultra matt floors with great durability - the raw experience of wood, protected. A premium product for a premium look.

Bona's Traffic HD Raw is EMICODE® EC1PLUS classified, the best level achievable for low emissions and exceeding stringent European health and environmental requirements.

Bona's Traffic HD Raw is GREENGUARD GOLD indoor air quality certified, the highest certification available for emissions which means it is safe for use around your home, your family and your pets.

Traffic Raw HD gives you an ultra matt natural floor, no matter which way you look at it.

The look and feel of natural wood

The sheen level of a floor can differ depending on the viewing angle. A low sheen floor can look glossier when standing further away, especially when sunlight reflects from the surface. After extensive research Bona has developed an ultra matt finish that appears absolutely natural and unfinished no matter from what angle or distance it is viewed. This makes Traffic Raw HD truly special.

Colouration

For lighter coloration use Bona White primer, or for deeper coloration, choose Bona Prime Classic or Intense, followed by two coats of Bona Traffic HD Raw.

Lasting Protection

An ultra matt finish is just part of the story. The secret lies in combining this with durability of wear, scuff, and chemical resistance. Even if Traffic HD Raw is almost invisible, it's there, assuring long-lasting protection.

Application

Bona Traffic HD Raw is easy to apply and abrade. With low odour and being non-toxic there is no need to vacate premises during application.
